

Association of Respiratory
Nurse Specialists

ARNS Educational Bursaries

ARNS supports applications from full members (with at least 6 months membership) to assist towards course fees , attending a respiratory conference or the purchase of books .

- It should be made clear in the application form how the individual hopes to improve the care of their patients by attending the course/conference.
- We allocate a total of £2000 for a twelve month period.
- Bursaries can only be awarded for a maximum of 50% of the cost of the course/conference.
- The average bursary will be for £250 but all applications will be given consideration depending on their merit.
- Bursaries will only be paid to the institution which is providing the course or conference; if this is not practical then costs will be reimbursed only with appropriate receipts or invoices.
- Bursaries can be applied for throughout the year but will be awarded at the beginning of June.
- Successful applicants must agree to give feed back to ARNS within 12 months, either as a poster for the conference, an article for the newsletter or a brief presentation at the annual conference.

Agreed by the ARNS committee: January 2010
